

CREATIVE SERVICES

20 years experience in layout and publishing of corporate publications

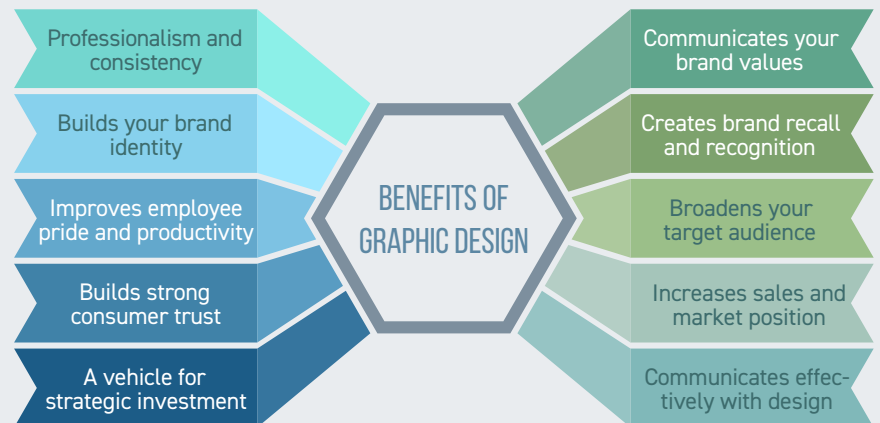

CORPORATE REPORT DESIGN

As part of our creative services, EBS offers a graphic design service for all your Integrated, Sustainability and Impact reporting. EBS will complete and formalise your report resulting in a high quality, professional final product. The design element assists in accentuating key findings and information, as well as incorporating a design and style to the page layout. We will consolidate data into infographics, apply your corporate branding to the report, source stock photos, commission an on-site photographer if required, print hard copies or provide a PDF document to publish the report online.

Our reports are compiled in-house by a dedicated team of Consultants and Designers, who collaborate throughout the project from initiation through to the final publication. The EBS team will ensure that the company brand, values, and message are clearly communicated. No detail will be amiss, the message of your company values will be apparent, the result will be a high quality, polished report.
